Fam - Pionki

Hunting Ammunition Factory

Hunting Ammunition Factory Fam-Pionki Spółka z o.o. (Ltd.) was established in 1991 as a result of a restructuring and proprietary transformation process of Zakład Tworzyw Sztucznych Pronit S.A. and continues the manufacturing of hunting ammunition, which was started after the War in 1948, by the Państwowa Fabryka Amunicji Myśliwskiej (National Hunting Ammunition Factory) PAWAM. The beginning of the ammunition production history in Pionki dates back to the twenties of the last century, when the famous nitrocellulose powder Sokół (Falcon) was manufactured here.

Over a period of more than 75 years, the ammunition from Pionki became known to hunters not only in Poland, but also in other countries and despite many twists, Fam-Pionki still exists to this day. In 2013 the factory became privately owned and the new Plant undertook a very difficult and courageous task - to restructure the company once again. The search for the best suppliers, changes of the manufacturing process and the implementation of process innovations, helped to achieve the intended target within a very short period. Thanks to the use of state-of-the-art and well equipped production lines, Fam-Pionki can boast of a wide range of 12ga, 16ga or 20ga hunting and sporting ammunition and 12ga special ammunition.

The goal of Fam-Pionki is to continue the tradition through constant improvement of the product quality and meeting the expectations of the customers. A young and visionary Management Board boldly sets new targets, raising the bar higher and higher. As a result of operating according to the ISO 9001 standard, the factory achieved a certificate of the Quality Management System and a certificate confirming meeting the criteria of the Internal Inspection System.

Today in Pionki, long and rich tradition joins with modern technology and a rapidly working team of specialists.

Fam-Pionki organizes and sponsors numerous shooting events, supports hunting competitions and for many years has been cooperating with the Polish secret services.

The offer of the company includes ammunition for Skeet, Trap, Parcour (with lead, as well as steel shot), hunting and slug ammunition, as well as special manufacturing for uniformed services.

We are confident that the quality and reliability of a wide range of Fam-Pionki ammunition will satisfy even the most demanding hunters and shooters.

Fam-Pionki - tradition and progress.

Magdalena Tausiewicz
President

Dynamic Shooting

Speed, accuracy and reliability.

Dynamic

Ammunition dedicated to dynamic shooters. The things important at IPSC are dynamics and how fast a competitor moving around a specially designed track is able to fire at targets. During an event, the shooters can have anywhere from a few to few dozen tracks to cover, using large amounts of ammunition. This is why, its quality and reliability are such an important element. Dynamic is a safe and proven selection.

Cartridge name	Gauge	Shot load [g]	Shot size [mm]	Velocity V _{2.5} [m/s]	Wad	Crimp	Head [mm]	Cartridges per pack
Dynamic Pro	12/70	28	3,00	390	plastic		10	25
Dynamic	12/70	28	3,00	380	plastic		10	25
Dynamic Slug	12/70	28	-	390	plastic	-	10	25
Dynamic Pro Slug	12/70	28	-	400	plastic	-	16	25
Dynamic Training	12/70	24	2,40	400	plastic		10	25
Dynamic Pro Buckshot	12/65	30	8,60	380	plastic		10	25

Sporting Ammunition

Trying to meet the expectations of sport shooters, Fam-Pionki has developed fourteen lines of high quality sporting ammunition, adapted to the specifics of all Shot events.

Training

Ammunition designed for learning how to shoot, as well as intensive training of Trap and Skeet. The 21g shot load combined with properly matched powder, results in the fact that even after an intense training, we will not feel fatigue cause by excessive recoil.

Cartridge name	Gauge	Shot load [g]	Shot size [mm]	Velocity $V_{2,5}$ [m/s]	Wad	Crimp	Head [mm]	Cartridges per pack
Trap	12/70	21	2,40	390	plastic		10	25
Skeet	12/70	21	2,00	390	plastic		10	25

Olympic

A legendary line of sporting ammunition, very well known in the Polish and global markets, where it has been recognized by the best shooters for the ideal combination of high quality and a reasonable price. Carefully selected components guarantee repeatability, equal distribution of pellets and remarkable effectiveness.

Cartridge name	Gauge	Shot load [g]	Shot size [mm]	Velocity $V_{2,5}$ [m/s]	Wad	Crimp	Head [mm]	Cartridges per pack
Trap	12/70	24	2,25 / 2,40	390	plastic		10	25
Skeet	12/70	24	2,00 / 2,25	390	plastic		10	25
Trap	16/70	24	2,40	390	plastic		10	25
Skeet	16/70	24	2,00	390	plastic		10	25
Trap	20/70	24	2,40	390	plastic		16	10
Skeet	20/70	24	2,00	390	plastic		16	10

Special

Ammunition designed for Skeet and Trap. An ideal choice for shooters who value high effectiveness. The shot load increased to 28g in combination with the high velocity of 390m/s allows to break the hardest clay targets, even at large distances.

Cartridge name	Gauge	Shot load [g]	Shot size [mm]	Velocity $V_{2,5}$ [m/s]	Wad	Crimp	Head [mm]	Cartridges per pack
Special	12/70	28	2,00 / 2,25 / 2,40	390	plastic		10	25

Disperser

Ammunition designed especially for Skeet. A unique structure of the container, which is equipped with a dispersion element (the so called disperser) ensure a very wide shot cluster even at small distances from the muzzle, which helps in firing at close distances.

Cartridge name	Gauge	Shot load [g]	Shot size [mm]	Velocity $V_{2,5}$ [m/s]	Wad	Crimp	Head [mm]	Cartridges per pack
Disperser	12/70	24	2,00	390	plastic		10	25
Disperser High Speed	12/70	24	2,00	430	plastic		10	25
Disperser	12/70	28	2,00	390	plastic		10	25

Olympic High Speed

Ammunition, which allows to significantly reduce target leading for Skeet and Trap. Increased velocity guarantees the certainty of breaking the clay target launched even at critical distances.

Cartridge name	Gauge	Shot load [g]	Shot size [mm]	Velocity $V_{2,5}$ [m/s]	Wad	Crimp	Head [mm]	Cartridges per pack
Olympic High Speed	12/70	24	2,00 / 2,40	430	plastic		10	25

Parcour

Ammunition designed for the fascinating discipline of Parcour. The 28g shot cluster moving with a high velocity, enables hitting even unconventionally moving clay targets.

Cartridge name	Gauge	Shot load [g]	Shot size [mm]	Velocity $V_{2,5}$ [m/s]	Wad	Crimp	Head [mm]	Cartridges per pack
Parcour	12/70	28	2,00 / 2,25 / 2,40	415	plastic		10	25
Parcour Bior	12/70	28	2,00 / 2,25 / 2,40	390	BIOR		10	25

Precision

Precision Line combines the best of the best in terms of components for most demanding sport shooters. This cartridges guarantee PRECISION and the best pattern. This high quality ammunition line offers 24 and 28g loads, which makes it suitable for all shooting disciplines. 16mm high head and specially selected wads cause a very low recoil, which is why it will be perfect for training or at difficult competitions.

Cartridge name	Gauge	Shot load [g]	Shot size [mm]	Velocity $V_{2,5}$ [m/s]	Wad	Crimp	Head [mm]	Cartridges per pack
Precision	12/70	24	2,00 / 2,25 / 2,40	390	plastic		16	25
Precision	12/70	28	2,00 / 2,25 / 2,40	390	plastic		16	25

Master 5% antimony

Top-class ammunition designed for professional competition in shooting sports. Many years of experience, openness to all remarks and suggestions from the athletes and using excellent components, allowed us to create an ammunition line for the best competitors. Master with a 5% antimony shot ensures high efficiency, regular and even pattern.

Cartridge name	Gauge	Shot load [g]	Shot size [mm]	Velocity $V_{2,5}$ [m/s]	Wad	Crimp	Head [mm]	Cartridges per pack
Master Trap	12/70	24	2,25 / 2,40	390	plastic		23	25
Master Skeet	12/70	24	2,00	390	plastic		23	25
Master Trap	12/70	28	2,40	390	plastic		23	25
Master Skeet	12/70	28	2,00	390	plastic		23	25

Master Competition

Most of the top shooters in the world increasingly often choose the 2.25 mm thick shot as the best solution for Compak Sporting, Sporting and Double Trap competitions. This ammunition provides perfect pattern over larger distances and ensures better concentration of the shot cluster just off the target.

Cartridge name	Gauge	Shot load [g]	Shot size [mm]	Velocity $V_{2,5}$ [m/s]	Wad	Crimp	Head [mm]	Cartridges per pack
Master Competition	12/70	28	2,25	390	plastic		23	25

Master Open

Premium class ammunition, designed for competitors participating in tournaments of the highest rank. The distinguishing feature of the Master Open is a shortened container and pellets with a 5% addition of antimony, which ensure greater diameter and regular pattern of the shot cluster just after the muzzle. Master Open ammunition is the best choice for shooting in Compak Sporting or Parcours de Chasse (Sporting).

Cartridge name	Gauge	Shot load [g]	Shot size [mm]	Velocity $V_{2,5}$ [m/s]	Wad	Crimp	Head [mm]	Cartridges per pack
Master Open	12/70	28	2,00 / 2,25	390	BIOR		23	25

Steel Ammunition

Olympic Steel

Ammunition that satisfies the demands of shooters sensitive to the needs of contemporary environmental protections. The steel shot has an increased diameter to compensate for smaller mass. This ammunition is used in standard weapons and in the strengthened version with increased parameters.

Cartridge name	Gauge	Shot load [g]	Shot size [mm]	Velocity $V_{2,5}$ [m/s]	Wad	Crimp	Head [mm]	Cartridges per pack
Olympic Steel	12/70	24	2,03 / 2,29 2,41 / 2,54	390	plastic		10	25
Olympic Steel	12/70	28	2,03 / 2,29 2,41 / 2,54	390	plastic		10	25

Olympic Steel High Speed

Olympic Steel High Speed line offers the best performance and pattern available. Specially selected wad and powder ensures maximum parameters and coverage. This high-speed steel load is ideal for short-range and high-volume shooting, in the Skeet or Compak sporting, whenever the use of environmental friendly shotshells is required. Thanks to a tighter pattern and increased velocity, this cartridges are able to break the clays at greater distances.

Cartridge name	Gauge	Shot load [g]	Shot size [mm]	Velocity $V_{2,5}$ [m/s]	Wad	Crimp	Head [mm]	Cartridges per pack
Olympic Steel High Speed	12/70	24	2,03 / 2,54	410	plastic		16	25
Olympic Steel High Speed	12/70	28	2,03 / 2,54	410	plastic		16	25

Disperser Steel

Fam – Pionki created this excellent shotshell for special situations in the short distance sport shooting. We use soft steel shots which are joined to the special cross wad. The newly developed Disperser Steel is by far the best steel cartridges on the market compared to other brands and patterns on a 10 meter distance. The pattern is up to twice as large - but still with great density.

Cartridge name	Gauge	Shot load [g]	Shot size [mm]	Velocity $V_{2,5}$ [m/s]	Wad	Crimp	Head [mm]	Cartridges per pack
Disperser Steel	12/70	24	2,03 / 2,41 2,54	390	plastic		10	25
Disperser Steel	12/70	28	2,03 / 2,41 2,54	390	plastic		10	25

Master Steel

Master series steel ammunition - state-of-the-art ammunition, for which we use the most advanced technologies. This ammunition allows shooters to achieve record scores. A specially selected galvanized pellets are characterized by extreme hardness - does not deform - thanks to which the ammunition ensures even pattern. In combination with a carefully selected powder and a special wad, which fully protects the gun, it is characterized by a high firing comfort and is excellent for sporting events.

Cartridge name	Gauge	Shot load [g]	Shot size [mm]	Velocity $V_{2,5}$ [m/s]	Wad	Crimp	Head [mm]	Cartridges per pack
Master Steel	12/70	24	2,03 / 2,54 2,79	390	plastic		23	25
Master Steel	12/70	28	2,03 / 2,54 2,79	390	plastic		23	25

Ammunition for CAS „Cowboy Action Shooting”

CAS, which stands for Cowboy Action Shooting, requires taking a large amount of shots while maintaining precision and, above all, speed. Therefore, using traditional Wild West weapons for western disciplines requires special ammunition. Fan Western cartridges ensure decreased pressure when firing, while maintaining even pattern and reliability of the weapons, in the lever action, pump action, as well as the horizontal “coach” systems. Closing the cartridges with a top wad is also a nod to tradition.

Cartridge name	Gauge	Shot load [g]	Shot size [mm]	Velocity V _{2,5} [m/s]	Wad	Crimp	Head [mm]	Cartridges per pack
Fam Western	12/65	24	2,40	320	plastic	○	10	25
Fam Western	12/70	24	2,40	320	plastic	○	10	25
Fam Western Black Powder	12/70	24	2,40	275	felt	○	10	25

Hunting Ammunition

Ammunition, which has been accompanying hunters for many years in their hunting adventures.

Fam

Hunting small game, including wildfowl, has always required the use of reliable and effective ammunition. That is why, hunters from all over Europe value Fam ammunition, also for precision of workmanship and reliability in operation. The standard 32g shot load was supplemented with 36g shot load cartridges for the 12/70 gauge and 28g for shooter who value moderate recoil.

Cartridge name	Gauge	Shot load [g]	Shot size [mm]	Velocity $V_{2,5}$ [m/s]	Wad	Crimp	Head [mm]	Cartridges per pack
Fam	12/70	28	3,50	385	plastic		10	25
Fam	12/70	32	2,50 / 2,75 / 3,00 3,25 / 3,50 / 3,75 4,00	385	plastic		10	25
Fam	12/70	32	2,50 / 2,75 / 3,00 3,25 / 3,50 / 3,75 4,00 / 4,25 / 4,50	385	plastic		10	25
Fam	12/70	36	3,00 / 3,50	380	plastic		16	25
Fam Semi - Magnum	12/70	40	3,00 / 3,50 3,75 / 4,00	375	plastic		16	10
Fam	16/70	28	3,00 / 3,25 / 3,50 3,75 / 4,00	385	plastic		10	25
Fam	16/70	28	2,50 / 2,75 / 3,00 3,25 / 3,50 / 3,75 4,00 / 4,25 / 4,50	385	plastic		10	25
Fam	20/70	24	2,50 / 2,75 / 3,00 3,25 / 3,50 / 3,75 4,00 / 4,50	385	plastic		16	10

Fam Plus

This ammunition is characterized by high velocity and thick target pattern. It ensures effective shots, even at maximum distances and at fast moving game. This unique ammunition is also available in the 16/70 gauge for shooter who value light and handy weapons, but still want to get the best shot parameters.

Cartridge name	Gauge	Shot load [g]	Shot size [mm]	Velocity $V_{2,5}$ [m/s]	Wad	Crimp	Head [mm]	Cartridges per pack
Fam Plus	12/70	28	3,50	400	plastic		16	25

Fam Plus	16/70	28	3,00 / 3,25 / 3,50 3,75 / 4,00 / 4,25 4,50	400	plastic		10	25

Top crimp

Fam-Pionki, as one of the few companies in the world, offers hunting ammunition traditionally closed with a top crimp. Thanks to the shot thickness designation placed on the case, one can quickly select visually the cartridges, which we want to put into the barrel. A top crimp wad is not only a century-old tradition, but also the certainty of ideal pattern of the target with the pellets.

Slug Ammunition

Driven collective hunts are the source of the best emotions for most hunters. Variable and unpredictable weather conditions make most of the hunters go with combined firearms. It is important for the used slug cartridges to be characterised by the highest precision and effectiveness, which is why, for many years, the projectiles from our offer have proven themselves in the hunting grounds.

Cartridge name	Gauge	Slug load [g]	Velocity $V_{2,5}$ [m/s]	Wad	Head [mm]	Cartridges per pack
W-8	12/70	29	410	felt	10	10
W-8 Plastic	12/70	32	400	plastic	10	10
Dzik Original Brenneke	12/70	31	420	felt	10	10
Rubin Sabot Original Brenneke	12/70	32	430	plastic	10	10
W-8	16/70	27	430	felt	10	10
Dzik Original Brenneke	16/70	26	420	felt	10	10
Atut	20/70	25	430	plastic	16	10
W-8	20/70	23	430	felt	16	10

Buckshot

The buckshot type ammunition, is the perfect ammunition to defend domestic peace. In countries where it is permitted, it is successfully used for culling large predators.

Cartridge name	Gauge	Shot load [g]	Pellets per cartridge	Shot size [mm]	Velocity $V_{2.5}$ [m/s]	Wad	Crimp	Head [mm]	Cartridges per pack
Buckshot	12/70	32	38	5,00	390	plastic	○	10	10
Buckshot SG	12/70	34	9	8,60	400	plastic	○	10	10
Buckshot SSG	12/70	22	12	6,80	420	plastic	○	10	10
Buckshot SSG	16/70	22	12	6,80	420	plastic	○	10	10
Buckshot SSG	20/70	22	12	6,80	420	plastic	○	16	10

Magnum Ammunition

Wherever maximum range and shot effectiveness counts, the Magnum type ammunition is the best choice. Top wad crimp, in combination with high shot load guarantees an effective shot, even at limit distances.

Cartridge name	Gauge	Shot load [g]	Shot size [mm]	Velocity $V_{2,5}$ [m/s]	Wad	Crimp	Head [mm]	Cartridges per pack
Fam Magnum	12/76	45	3,00 / 3,25 / 3,50 3,75 / 4,00 / 4,25 4,50	380	plastic		23	10
Magnum Brenneke	12/76	39	-	390	plastic	-	23	10
Fam Magnum	20/76	32	3,00 / 3,25 / 3,50 3,75 / 4,00 / 4,50	380	plastic		16	10
Atut Magnum	20/76	25	-	450	plastic	-	16	10

Fam Steel Plus

Hunting small game, including wildfowl, has always required the use of reliable and effective ammunition. If you additionally look for highest quality, precision and are concerned about the environment - Fam Steel series is the perfect choice. That is why, hunters from all over Europe value Fam ammunition.

Cartridge name	Gauge	Shot load [g]	Shot size [mm]	Velocity $V_{2,5}$ [m/s]	Wad	Crimp	Head [mm]	Cartridges per pack
Fam Steel Plus 32	12/70	32	3,05 / 3,30 / 3,56	400	plastic		16	25
